

Performance Analysis Services

Excalibur Education Group

Our professionals can assist with the proper analysis of data and help to identify trends, tendencies, strengths, and opportunities. Armed with this knowledge, strategies can be formed, and steps can be taken to both build on current successes and remedy potential weaknesses.

Why Excalibur?

The Excalibur Education team has experience working with institutions, states, and systems to provide a third-party, external analysis of programmatic performance data. The Excalibur Education team has knowledge of how to create substantive change through a data-driven decision-making process. The Excalibur team will engage institutional leaders in courageous conversations to analyze performance and examine data with the goal of improvement.

Performance Analysis Services

The Excalibur Education Group offers analysis services in the following areas:

- Institutional Outcomes, aligned with student learning outcomes
- Regional Workforce and Industry Training Needs
- Equity and Underrepresented Population Outcomes
- Market Landscape Profile
- Return On Investment (ROI) and Cost-Benefit analyses
- Institutional SWOT Analysis

The Excalibur Process

The Excalibur team will work with campus leadership to assess and tailor-make a plan that fits the institution. The services provided commonly include meetings with campus leadership, targeted focus groups (internal and external), institutional characteristics and priorities, and alignment of initiatives with institutional goals and objectives. Excalibur Education will identify the appropriate metrics and provide a comprehensive report to the institution to be shared with the campus community to gain buy-in and used by leadership to drive change and improvement.
